Profile summary

B.Tech Computer Science and Engineering student with a good knowledge in Frontend Development, UI/UX Design, and Software Development. Skilled in HTML, CSS, JavaScript, React.js, TypeScript, Tailwind CSS, and Figma, with knowledge of Java, Data Structures & Algorithms, and core Computer Science concepts. Interested in building responsive, intuitive, and user-focused digital experiences while applying software engineering and design principles. Seeking an entry-level opportunity as a Frontend Developer, UI/UX Designer, or Software Developer.

Education

- **Bachelor of Technology (Computer Science and Engineering)** 2023–2027
  Chandigarh Group of Colleges, Jhanjeri
  CGPA: **8.4**
- **Senior Secondary School Education** 2023
  Maples Academy, Deoband
  Percentage: **89.7%**
- **Secondary School Education** 2020
  Maples Academy, Deoband
  Percentage: **92%**

Projects

UI/UX Design - Mobile Application

- Designed and prototyped a mobile application interface focusing on user experience and usability principles.
- Created wireframes, mockups, and high-fidelity designs demonstrating attention to visual hierarchy and user interaction flows.
- Applied design thinking methodology to solve user pain points and enhance overall application experience.
- **Tech Stack:** Figma, UI/UX Design Principles

Echelon— Fashion E-Commerce Platform

- Built a fully responsive e-commerce clothing website with modern UI/UX principles.
- Developed reusable frontend components using React and TypeScript.
- Implemented product filtering, search functionality, cart management, and authentication.
- Used Tailwind CSS and animations to create an interactive user experience.
- **Tech Stack:** React.js, TypeScript, Tailwind CSS, Vite, Appwrite/Firebase, Framer Motion, Git, GitHub.

AI SaaS Dashboard | React.js, JavaScript, Tailwind CSS, OpenAI API

- Developed a modern AI SaaS dashboard interface with a responsive and user-focused design.
- Built reusable React components for dashboard navigation, AI chat, image generation, usage tracking, subscription plans, and analytics.
- Designed responsive layouts and interactive UI elements using **React.js and Tailwind CSS** with a focus on usability and visual consistency.
- Integrated AI-powered features through API-based interactions and created a structured dashboard experience for managing AI tools and usage.

Skills

- **Technical Skills:** Java, MySQL, REST APIs, JSON, Python, UI/UX Designing
- **Frontend Development:** HTML, CSS, JavaScript, React JS, Tailwind CSS,TypeScript
- **Soft Skills:** Multitasking, Creative Thinking, Problem-Solving, Communication, Teamwork
- **Tools**: Git, GitHub, VS Code, Figma, Webflow

- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Computer Organization and Architecture

Achievements / Participation

- Completed Oracle Academy DBMS Certification Course, demonstrating proficiency in database design and management.
- Served as Hackathon Coordinator, organizing technical competitions and fostering collaborative problem-solving culture. Solved 200+ **coding problems** across platforms (LeetCode, HackerRank).
- Completed 2-month In-Campus Summer Training, gaining practical experience in software development and project execution.
- Completed UI/UX Design certification course from Udemy with practical experience in Webflow, Figma, wireframing, and responsive design.
- Demonstrated expertise in frontend development through multiple projects and coursework.

Certification

- **Introduction to Generative AI Foundation** — AWS Academy
- **Database and SQL** — Infosys Springboard
- **AI skills with Data Science** — Intel digital readiness
- **CompTia Network+** — CompTia College
